

SCHÖNES WETTER!

TFA®

SMARTHY

30.5035.xx SMARTHY Thermo-Hygrometer for Smartphones

Make your Smartphone into a **mobile climate meter**. With **SMARTHY** you can easily view and record the in-and outdoor temperature and humidity values.

Free app with many useful features

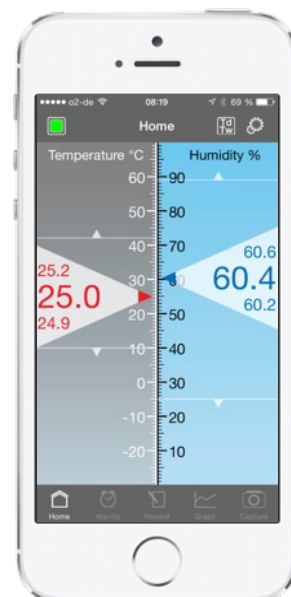

The animated display on the homescreen shows vividly the current temperature and humidity. The app directly displays the maximum and minimum readings and active alarm limits. The logger function allows you to record a series of measurements at a specific location. You can add a description and a photo to the readings. The extensive chart feature allows you to track the changes in the measurements.

Helpful photo function

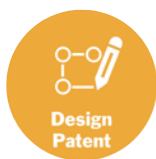

Not just for holiday pictures: You can add your picture directly with the current temperature and humidity reading

- **Share your measurements easily by e-mail, Facebook or Twitter**
- **Pro version offers many additional functions (eg, additional measurements and locations)**
- **Works with iPhone 4 (or newer) and iPad 2 (or newer) and Android (Version 4.0 or newer)**

Available in black or white/
grey

Smartphone not included
